Purpose	Start	End
The purpose of this subcommittee is to provide advice on the scientific quality, budget, safety and mission relevance of investigator-initiated research proposals submitted for VA merit review evaluation. Proposals submitted for review include various medical specialties within the general areas of biomedical, behavioral and clinical science research.	11/15/2017	11/15/2017
The purpose of this subcommittee is to provide advice on the scientific quality, budget, safety and mission relevance of investigator-initiated research proposals submitted for VA merit review evaluation. Proposals submitted for review include various medical specialties within the general areas of biomedical, behavioral and clinical science research.	11/15/2017	11/15/2017

<p>Thirty meetings were conducted between November 15, 2017 and January 19, 2018 to provide advice on the scientific merit, budget, safety, and mission relevance of investigator-initiated research proposals submitted for VA merit review consideration. Reviewed proposals involved a wide range of medical specialties within the general areas of biomedical, behavioral and clinical science research. The closed meetings involved discussion, examination, reference to staff and consultant critiques of research proposals. The details and the evaluation of each proposal were provided to the parent committee.</p>	11/15/2017 - 01/19/2018

[illegible]

The purpose of this subcommittee is to provide advice on the scientific quality, budget, safety and mission relevance of investigator-initiated research proposals submitted for VA merit review evaluation. Proposals submitted for review include various medical specialties within the general areas of biomedical, behavioral and clinical science research.	01/19/2018 - 01/19/2018
The purpose of the Joint Biomedical Laboratory and Clinical Science Research and Development Scientific Merit Review Board meeting is to provide advice on the overall direction and governance relating to investigator-initiated research proposals submitted for Biomedical Laboratory and Clinical Science Research and Development Services Merit Review consideration. This meeting of the parent committee was open to the public and allowed for public input on policies, procedures, and outcomes of the closed merit review meetings.	01/25/2018 - 01/25/2018
The purpose of this subcommittee is to provide advice on the scientific quality, budget, safety and mission relevance of investigator-initiated research proposals submitted for VA merit review evaluation. Proposals submitted for review include various medical specialties within the general areas of biomedical, behavioral and clinical science research.	05/16/2018 - 05/17/2018
The purpose of this subcommittee is to provide advice on the scientific quality, budget, safety and mission relevance of investigator-initiated research proposals submitted for VA merit review evaluation. Proposals submitted for review include various medical specialties within the general areas of biomedical, behavioral and clinical science research.	05/16/2018 - 05/17/2018
Twenty-nine meetings were conducted between May 16, 2018 and July 16, 2018 to provide advice on the scientific quality, budget, safety, and mission relevance of investigator-initiated research proposals submitted for VA merit review consideration. Reviewed proposals involved a wide range of medical specialties within the general areas of biomedical, behavioral and clinical science research. The closed meetings involved discussion, examination, reference to staff and consultant critiques of research proposals. The details and the evaluation of each proposal will be provided to the parent committee.	05/16/2018 - 07/16/2018
The purpose of this subcommittee is to provide advice on the scientific quality, budget, safety and mission relevance of investigator-initiated research proposals submitted for VA merit review evaluation. Proposals submitted for review include various medical specialties within the general areas of biomedical, behavioral and clinical science research.	05/17/2018 - 05/17/2018
The purpose of this subcommittee is to provide advice on the scientific quality, budget, safety and mission relevance of investigator-initiated research proposals submitted for VA merit review evaluation. Proposals submitted for review include various medical specialties within the general areas of biomedical, behavioral and clinical science research.	05/17/2018 - 05/17/2018
The purpose of this subcommittee is to provide advice on the scientific quality, budget, safety and mission relevance of investigator-initiated research proposals submitted for VA merit review evaluation. Proposals submitted for review include various medical specialties within the general areas of biomedical, behavioral and clinical science research.	05/18/2018 - 05/18/2018
The purpose of this subcommittee is to provide advice on the scientific quality, budget, safety and mission relevance of investigator-initiated research proposals submitted for VA merit review evaluation. Proposals submitted for review include various medical specialties within the general areas of biomedical, behavioral and clinical science research.	05/18/2018 - 05/18/2018
The purpose of this subcommittee is to provide advice on the scientific quality, budget, safety and mission relevance of investigator-initiated research proposals submitted for VA merit review evaluation. Proposals submitted for review include various medical specialties within the general areas of biomedical, behavioral and clinical science research.	05/18/2018 - 05/18/2018
The purpose of this subcommittee is to provide advice on the scientific quality, budget, safety and mission relevance of investigator-initiated research proposals submitted for VA merit review evaluation. Proposals submitted for review include various medical specialties within the general areas of biomedical, behavioral and clinical science research.	05/18/2018 - 05/18/2018
The purpose of this subcommittee is to provide advice on the scientific quality, budget, safety and mission relevance of investigator-initiated research proposals submitted for VA merit review evaluation. Proposals submitted for review include various medical specialties within the general areas of biomedical, behavioral and clinical science research.	05/21/2018 - 05/21/2018
The purpose of this subcommittee is to provide advice on the scientific quality, budget, safety and mission relevance of investigator-initiated research proposals submitted for VA merit review evaluation. Proposals submitted for review include various medical specialties within the general areas of biomedical, behavioral and clinical science research.	05/21/2018 - 05/21/2018

<b>18d. Total</b>	\$1,389,364.87	\$1,546,263.54
<b>19. Federal Staff Support Years (FTE)</b>	5.40	5.50

#### **20a. How does the Committee accomplish its purpose?**

The Joint Biomedical Laboratory/Clinical Science Research and Development Services Scientific Merit Review Board supports the central VA mission in advancing Veterans' health in its review of Veteran-centric research applications. Supporting research helps to recruit and retain top clinician-scientists, as well as supports the VA Strategic Goals of improving customer service and implementing the mission action. Applications reviewed by the Board included research on suicide prevention, one of the Top 5 Priorities for the VA. Other high priority topics include traumatic brain injury, post-traumatic stress disorder,

pain, and opioid abuse. The Board provided expert review of the scientific quality, budget, safety, and mission relevance of investigator-initiated research proposals submitted for VA Merit Review funding. The evaluations resulted in recommendations for approval or disapproval, levels and duration of funding, and a priority score reflecting the overall merit of the application. These recommendations were used by the Joint Biomedical Laboratory/Clinical Science Research and Development Services Scientific Merit Review Board to direct the limited research funds to the most promising VA-relevant projects that will impact the health and health care of Veterans.

**20b. How does the Committee balance its membership?**

The Board must have an appropriate balance of reviewers to evaluate the scientific, technical, and medical aspects of the proposals within the purview of the Board. Collectively, the members must reflect the broad-based scientific expertise required to competently review the research proposals received. The number of Board members is determined by the number and nature of the proposals that are received.

**20c. How frequent and relevant are the Committee Meetings?**

The scientific review function of the Board is performed by 30 standing review panels, which usually meet twice a year--spring and fall--in order to evaluate the scientific merit of research proposals each year. For the current year, there were 59 review panel meetings. In order to assure timely evaluations of research proposals, semi-annual meetings of the review panels are essential.

**20d. Why can't the advice or information this committee provides be obtained elsewhere?**

The Board is composed of both VA and non-VA scientists, who are nationally and internationally recognized as experts in their respective fields. Local staff does not have the required expertise, and there is no other acceptable way to accomplish the scientific review of Merit Review proposals. The outstanding credentials of the review panels lend credibility to award decisions.

**20e. Why is it necessary to close and/or partially closed committee meetings?**

The closed portion of the meetings is devoted to the evaluation of research proposals from investigators whose ideas and credentials are discussed freely. These discussions must remain confidential to protect the privacy of the individual investigators and their research ideas.

**21. Remarks**

The Joint Biomedical Laboratory/Clinical Science Research and Development Services

Committee Members	Start	End	Occupation	Member Designation
Abdi, Salahandin	10/17/2016	06/28/2019	Professor and Chairman, Department of Pain Medicine, University of Texas MD Anderson Cancer Center, Houston, TX 77030	Special Government Employee (SGE) Member
Adam, Rosalyn	09/08/2016	06/29/2018	Associate Professor of Surgery (Urology) Harvard Medical School and Boston Children's Hospital	Special Government Employee (SGE) Member
Agrawal, Devendra	10/01/2015	06/30/2021	Professor of Clinical and Translational Science, Department of Medicine, Creighton University	Special Government Employee (SGE) Member
Aguiar, Ricardo	02/07/2017	06/30/2021	Research Health Scientist South Texas VA Health Care System Professor in Medicine, Biochemistry, and Immunology (Tenured) University of Texas Health Science Center at San Antonio	Regular Government Employee (RGE) Member

**Number of Committee Members Listed: 152**

## Narrative Description

The Joint Biomedical Laboratory/Clinical Science Research and Development Services

Scientific Merit Review Board supports the central VA mission in advancing Veterans' health in its review of Veteran-centric research applications. Supporting research helps to recruit and retain top clinician-scientists, improving directly employee experience and access to care. The Board provided expert review of the scientific quality, budget, safety, and mission relevance of investigator-initiated research proposals submitted for VA Merit Review funding. The evaluations resulted in recommendations for approval or disapproval, levels and duration of funding, and a priority score reflecting the overall merit of the application. These recommendations were used by the Joint Biomedical Laboratory/Clinical Science Research and Development Services Scientific Merit Review Board to direct the limited research funds to the most promising VA-relevant projects.

**What are the most significant program outcomes associated with this committee?**

Checked if Applies

- |   |                                     |
|---|-------------------------------------|
| Improvements to health or safety                  | <input type="checkbox"/>            |
| Trust in government                               | <input type="checkbox"/>            |

**Cost Savings Comments**

NA

**What is the approximate Number of recommendations produced by this committee for the life of the committee?**

10,784

**Number of Recommendations Comments**

This is the total number of recommendations for FY 2003 through FY 2018.

**What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?**

78%

**% of Recommendations Fully Implemented Comments**

The Board recommended funding for more proposals than funds were available to support.

**What is the approximate Percentage of these recommendations that have been or will be Partially implemented by the agency?**

0%

**% of Recommendations Partially Implemented Comments**

NA

**Does the agency provide the committee with feedback regarding actions taken to implement recommendations or advice offered?**

Yes ☒ No ☐ Not Applicable ☐

**Agency Feedback Comments**

Each review meeting is informed about the outcome of recommendations at the subsequent meeting.

**What other actions has the agency taken as a result of the committee's advice or recommendation?**

Checked if Applies
